No. 203

Introduced by Assembly Member Brownley

January 27, 2011

~~An act to amend Section 53300 of, and to add Sections 53304 and 53305 to, the Education Code, relating to~~ *An act to amend Sections 53300 and 53302 of, and to add Sections 53300.5, 53304, and 53305 to, the Education Code, relating to school intervention.*

LEGISLATIVE COUNSEL'S DIGEST

AB 203, as amended, Brownley. Public schools: parent empowerment: school intervention.

Existing law requires a local educational agency to implement one of several specified interventions for a school not identified as a persistently lowest-achieving school that, after one full school year, fails to meet specified criteria and has a specified percentage of parents and legal guardians of pupils sign a petition requesting the local educational agency to implement at least one of 5 specified interventions. Existing law requires a local educational agency to implement the intervention option requested by the petition unless the agency makes a specified finding in a regularly scheduled public hearing. *Existing law limits the number of schools subject to a petition pursuant to these provisions to 75.*

This bill would require interventions to be implemented also for a school that is identified as persistently lowest-achieving but does not receive specified school improvement grant funding. The bill would require a governing board of a local educational agency to allow parents and legal guardians to provide testimony at the regularly scheduled public hearing. To the extent these provisions would impose additional duties on local educational agencies, the bill would impose a state-mandated local program.

The bill would prohibit more than one parent or legal guardian per pupil from signing a petition, and would require ~~any written information provided to parents or legal guardians pursuant to these provisions~~ *the parent empowerment petition, and, if the petition includes a specific charter school operator, a summary of the charter petition, to meet specified language requirements. The bill would require that, if the petition includes a specific charter school operator, that the charter petition summary include specified elements. The bill would require that, if paid signature gatherers are being used, the petition include a statement indicating this, and would prohibit signature gatherers from being paid per signature. The bill would require all parties involved in the signature gathering process to adhere to specified school procedures.* The bill would require the State Department of Education to provide specified information on its Internet Web site, in easy to understand terms, regarding the petition process, the 5 intervention options that parents and legal guardians may request, and a sample petition that meets specified requirements. The bill also would make clarifying changes to, and provide definitions for, those intervention petition provisions.

The bill would require the schoolsite council at each school that is eligible for a petition to be submitted pursuant to these provisions to provide, at its next scheduled meeting, or a meeting within 90 days, whichever is sooner, information regarding the petition process, including the intervention options available and the process for submitting a petition. By imposing new duties on school districts, this bill would impose a state-mandated local program.

The bill would require the department, within 90 days after the Superintendent and state board have received 75 petitions, to submit a report to the appropriate policy and fiscal committees of the Legislature, the Governor, and the state board, that includes specified information relating to the implementation of these school interventions.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:
